How Could We Not Believe – Ben and Ellen Harper

```
         C           F            C    walk to -->Am          F          C    G
So beautiful how could we not believe?      So beautiful how could we not believe?
      F      Am        C     G     C
We love; we grieve; then all seek our reprieve.
      C           F            C
So beautiful how could we not believe?

         C           F                  C walk to --> Am        F          C    G
So beautiful we had to stand aside.        So beautiful we had to stand aside.
      F          Am           C     G     C
We had to stand aside, with our arms open wide.
        C        F            C
So beautiful we had to stand aside.

         C           F                  C    walk to --> Am        F              C    G
So beautiful we had to close our eyes.         So beautiful we had to close our eyes.
        F          Am                C     G     C
And listen to the sound.  It could be heard miles around
        C        F                  C
So beautiful we had to close our eyes
```

Interlude:
```
C   F   C  walk to --> Am   F   C   G
F   Am   C   G   C
C   F   C
```

```
         C              F            C    walk to --> Am        F              C    G
So beautiful to be free from my name.         So beautiful to be free from my name.
      F              Am      C      G       C
To be free from my name, and all those who lay claim.
        C        F                  C
So beautiful to be free from my name.

         C              F            C    walk to -->Am          F          C    G
So beautiful how could we not believe?        So beautiful how could we not believe?
        F          Am              C       G       C
How could we not believe; having lived through times like these?
        C        F            C
So beautiful how could we not believe?  (repeat 3x)
```
